2. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 99-113, 166-214 and 216-222 rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the enablement requirement. These functions are not recited in the specification. The Examiner cannot locate where in the applicant’s specification that these functions are automatically performed are being performed at all.
